### WWA PROJECT STARTED IN VOLOS

*European funded initiative to create and make available online to educators, an educational interactive ebook – WaterWorldAdventure eBook - to improve the Ocean Literacy of pre-school children (3 - 6 years)*

On the 14th November 2016, in Volos, the WWA Project has officially started. In the premises of University of Thessaly UTH, the coordinator of the project University of Thessaly, hosted representatives from organizations coming from Portugal, (ADVANCIS & BOON), Poland (CWEP) and Romania (ISJA).

**WATERWORLD**  
adventure

The project is funded by Erasmus+, the program of European Commission promoting the development of education in Europe, and is focused in creating and making available online to educators, an educational interactive ebook to improve the Ocean Literacy of pre-school children (3-6 years). By acting next to pre-school children, the project expects to achieve a wider long-term impact in the relation between European Citizens and the ocean. Finally the project wishes to tackle the general lack of resources to implement educational programmes on Ocean Literacy by providing learning contents in a format which is engaging for learners, easy to use by educators and easy to scale at European level.

The project will last two years and in this first phase will define the learning requisites and approach that should guide the development of the eBook and the Facilitator's Guide.
